TOASTING

A **light toast** allows us to tease out delicately sweet flavours from the wood such as honey, vanilla and custard.

Duration : 1 hour

GRAPE VARIETY

100% Ugni blanc.

This vigorous grape provides freshness and finesse, allowing the strengths of the terroir to shine through.

BARREL TYPE

PARK EXTRA is aged in oak barrels with a capacity of 350 liters. After twelve months in new barrels, the cognac is transferred to used casks, mainly from the Limousin forest.

DISTILLATION

The process of **double distillation** using traditional copper pot stills (30hl) makes it possible to obtain complex, finely elaborated spirits. This is known as the 'Charentais method'.

MEDALS AWARDED TO PARK EXTRA

**INTERNATIONAL WORLD SPIRITS COMPETITION
GOLD 2012**

**NEW YORK INTERNATIONAL SPIRIT COMPETITION
SILVER 2012**

**SAN FRANCISCO WORLD SPIRITS COMPETITION

THE COGNAC AROMA WHEEL

Fifty leading sommeliers, cellar masters, tasting experts and specialist journalists joined forces to describe and define the rich aromatic palette of Cognac. The fruit of these four days of intensive tasting and discussion is presented here: **The Cognac Aroma Wheel**.

A cognac has a multitude of mixed, complex aromas. Some of these will be dominant and make more of an impact on your nose and your palate.

HOW TO ENJOY

This cognac pairs especially well with Cuban cigars, dark chocolate or salted butter caramels.
